Explainable AI for Model Debugging

Deep dive published today

Key Insight 1

```
```yaml
```

```
tags: [explainable-ai, shap, model-debugging, recommendation-system,
feature-interactions, production-ml]
```

```
```
```

```
# Debugging Black Box Models: Using SHAP to Identify and Fix Feature  
Interactions
```

Key Insight 2

in a Real-World Recommendation System

TL;DR

- **SHAP** is the industry-standard tool...

Today's Research

Efficient Fine-Tuning and Deployment of Large Language Models (LLMs)
