

# Just published: Explainable AI for Model Debugging

What I found on GitHub today

# Explainable AI for Model Debugging

Deep dive published today

# Key Insight 1

```
```yaml
```

```
tags: [explainable-ai, shap, model-debugging, recommendation-system,  
feature-interactions, production-ml]
```

```
```
```

```
# Debugging Black Box Models: Using SHAP to Identify and Fix Feature  
Interactions
```

## Key Insight 2

in a Real-World Recommendation System

---

### TL;DR

- **SHAP** is the industry-standard tool...
